

“SEE IT” – Everything YOU need for inspection

Wohler VIS 2000

The fully digital Wohler VIS 2000^{PRO} color monitor captures images or short videos directly onto an integrated Compact Flash memory card. The stored images and video files can be downloaded easily to a laptop or PC via PC via the included USB 2.0 card reader. With the Wohler VIS 2000^{PRO} it is no longer necessary to use a separate digital capture device or VCR for recording.

Advantages:

- digital memory for pictures and videos
- Coutput for analogue video signal
- RCA video output for recording
